Dear Second Grade Parents,

T-Shirt

On Tuesday your child was given a St. Dennis t-shirt. This was in honor of our schools 50th year of faith-filled education. We will also be using these t-shirts for Catholic Schools Week in February.

Red Robin

This is a very simple program for at home reading. This is not a must for your child, but everyone wanted to participate, I was not about to argue! When your child is finished with his/her list, they should bring it in for me to sign. When they take it to Red Robin they should receive another sheet. If not, I have more copies to give them.

Math

We have been working on a few different math concepts, Greater or Less than and Estimation. The kids did a great job working on this. We will touch on this more throughout the year.

This week we will be focusing on more addition strategies as well. My hope is that this is a review and we can move on very quickly. I would like them to know their addition facts 0-18. Doing flashcards is an easy way to practice this.

Great Additions

This year Sister Sabrina and Ms. Polzer will be helping out in our class. They are a great addition to our school and the children are very excited to work with each of them.

That is all for now.

Have a great week!

Mrs. Hanson
