WELCOME BACK!

6th Grade Math- Place Values is the thing to do here! We are learning what values numbers have and will start doing some powers of ten shortly.

7th Grade Social Studies- We are going to be taking a trip around the world this year! It won't cost you a bit! We will be learning some basic information so that we can begin traveling sometime next week!

5th Grade Math- We are doing Place Values in here too! This is going to be a fun group to work with...something tells me I'm not going to be smarter than these 5th graders!

3rd Grade Math- Well, after two days of seeing where we belong, I think we will be ready to start doing...Place Values in here also! This group looks to be kind of fun!

6th-8th Grade Health- Yes, I will be teaching Health this year. We spent last Friday talking about setting Goals and how they have to be our Goals and not anyone else's. I think I'm going to like doing this!

It is so nice to be back! I think the kids are too because they are thinking about SNOW DAYS already!!!

Ms. Pitz
