

Thank you for your continued interest, patience and concern as we anticipate the re-opening of our school. After much consultation with our Diocesan Superintendent of Catholic Schools, the Department of Health Services, the Center for Disease and Control, local health officials and most importantly the support of our faculty and pastor, I offer the following for your consideration.

Saint Dennis school intends to open officially on August 27th, 2020. We intend to offer an in-school model as well as a virtual in-home model. Each family/household will need to determine what is best for their situation.

The following is to be understood;

- All students in grades 3-8 will receive a school chromebook.
- Families/households must commit for month to month renewals of in person or virtual
- Busing will be made available/
- Temperatures will be taken prior to admittance daily and any student with a temperature of 100.4 will be sent home immediately

We also include the following attachments for your review. These are 'working documents' in development and meant to bring reassurance in this time of great fluidity. Other documents are also in development.

- Saint Dennis School Hygiene Policy
- Saint Dennis Regular Cleaning and Prevention Policy
- St Dennis School illness Covid 19 policy
- Saint Dennis Staff Covid agreement

Please review the material and I invite you to join me for a zoom meeting for the respective grades.

- Grades 4K- Grades 1 on Wednesday July 22 6:00 -6:45
- Grades 2-5 July 22, 7:00 -7:45
- Grades 6-8 July 22, 8:00-8:45

Following the zoom meetings, adjustments will be made. It is our hope that by July 31st you will make a reasonable decision as to what is best for your household in terms of participating in school or in home. This decision is not binding but allows us certain 'in house status.'

Know of my gratitude for your patience and be assured of my desire to be of service to you, your children and the Saint Dennis school community.

Mr. Beisser
